SCHOOLS COMMITTEE MEETS. Work With Children to Be Continued on New Plan for Clean-Up Week-Efficient Health Officer Praised.

The schools committee of the City Beautiful committee of the Board of Trade held a meeting Wednesday morning in the room over the Otis library. The chairman, Mrs. Henry D.

Johnson, presided.

A plan of year-round work was outlined and in spite of the discouragements of effort in a city where untily
streets, carelessness in garbage gathering and the like grow worse instead of better, the committee members de-termined not to relax their work.

Very encouraging was the report that Health Officer Dr. E. J. Brophy has acted promptly in remedying un-sanitary and unsightly conditions, when complaints have been made to

The matter of preparing for Clean-up week, which begins Monday next, was left with the chairman, Mrs. Johnson, who will co-operate with Supt. E. J. Graham and the teachers.

Grand Treasurer's Report.

A summary of the report of the grand treasurer, Sidney W. Challen-

ger, follows:

In the criminal superior court in session at New London the jury in the case of the state vs. Earl May and Truman Brown, both of New London, charged with breaking and entering a freight car at the Fort Neck vards, brought in a verdict of guilty at 4 o'clock Wednesday afternoon, having been out one hour. Sentence was immediately pronounced by Judge Joel H. Reed. May was sent to jail for nine months and Brown got six months in jail.

When court came in Wednesday morning the arguments were started, the hearing of the testimony having been concluded on Tuesday afternoon. The arguments occupied the entire morning session and part of the afternoon session.

SMALL CROP OF PEACHES THIS YEAR February Frost Was Disastrous on Trees in the State.

Public Utilities Commissioner J. Howard Hale of Glastonbury says the crop of peaches in Connecticut this year will be about 50 per cent of a full crop. The frost in Connecticut on the night of Feb. 6 had a disastrous effect on the peach trees in some places, and was felt more or less throughout the state.

"What was the extent of your loss?"

In the damage done our trees in Glastonbury we were the hardest hit of any other peach grower in the state. Our loss was 39 per cent. That is to say, from trees which we expected to harvest 100,000 baskets of peaches we will have only about one thousand. During the forty-seven years in which we have been cultivating poaches we have only once hefore been so badly hit by the frost. In Seymour, where we have an orchard, we will have a 50 per cent. crop. But an abundant apple crop is expected and that will help us stand our loss on peaches," said Mr. Hale.

President Reynolds' Recommendations Marcus L. Reynolds, president of the Odd Fellows home made the follow-ing recommendations in his report: (1) That a semi-annual tax of fif-teen cents per capita be levied on the membership of January and July of each year.

teon cents per capita be levied on the membership of January and July of each year.

(2) To amend the law in regard to auditing the books so as to provide for an sinual audit only.

(3) That a committee be appointed to study the conditions at the home in regard to increasing the accommodations at the home, and report back to the board of managers their findings with recommendations.

My brothers, it has been brought to my attention, and I am of the same opinion, that there should be something done in regard to increasing the permanent fund of the home. As you all know, Odd Fellowship in the state is growing older and the membership larger. Therefore, there will be more brothers to be cared for at the home. While the per capita tax is but 15 cents per member, as at the present time, it cannot remain at that figure long if we do not increase the permanent fund. I therefore recommend that P. G. M. Brother Grant U. Kierstead be a committee of one, with power to add as many as he deems advisable, to consider this matter and report back to the board of managers their findings with recommendations. In closing I wish to express my thanks to every member in the stat who has helped with this good work for our home; to all my committees who have worked so faithfully during the year, and to the board of managers for their ready support at all imes. The work and the home show that you have been successful. Hoping for the future success of Odd Tellowship and our home.
